[REDACTED]

If you prefer to inspect and copy the records using your own computer we will happily provide the records to you on a USB drive that you may use during your mutually agreed upon visit.

If you would like to inspect the records using a DCBID computer, you may use a brand new sealed writable disc or one that you have previously provided to us to make a copy of the records during your mutually agreed upon visit.

Let us know which of the above methods you will be using to copy the records and which of the following dates and times will work for you to come in to our office. We can propose alternative dates and times if you would like.

Monday, February 3rd - 2pm or 3pm
Tuesday, February 4th - 1pm or 3pm
Wednesday, February 5th - 10:30am or 1pm

Thanks,

Steph Bernstein

Subject: Re: CPRA request (DCBID.2019.12.30.a)

Hi Ms. Bernstein,

I have no doubt that you've been advised of all kinds of things, but the law requires you to allow me to use my own equipment to copy records unless the means of copying WOULD result in damage to records or unauthorized access to computer systems.

Note that "would" doesn't mean "might according to some random advice". "Would" doesn't mean "conceivably" or "in some possible world." Also, given that every time I've inspected electronic records in person at your BID you've given me a computer that's completely isolated from all other computers, it's not possible for any means of copying
